SUMMARY

Experienced Systems Analyst with a strong background in developing robust WEB ERP systems, utilizing Cache Database and proficient in HTML, Javascript, CSS, and JQuery.

- oriented programming, and advanced analytical methodologies.

Skilled in customizations, WebServices, Delphi, SQL, and COS.

Proven track record of successfully delivering a diverse range of projects, employing cutting-edge technologies such as HTML5, CSS3, Bootstrap, JavaScript, JQuery, Angular, NodeJS, Postgresql, MongoDB, among others.

Currently, I am an integral part of an agile development team, actively contributing to multiple projects.

My primary focus lies in front-end analysis and development, proficient in TypeScript, Angular, and Git.

I am passionate about delivering innovative solutions that meet and exceed client expectations.

Let's connect and explore potential opportunities to collaborate on exciting projects!
